

Hello, my name is Ami. I am a
Designer / Front End Developer living
in Bay Area, Ca.

Cloud Native Computing

I like to code things from scratch, and enjoy bringing ideas to life in the browser.

UI/UX Design

I like to code things from scratch, and enjoy bringing ideas to life in the browser.

About Me

I am a dedicated and self-motivated technical knowledge learner and recently acquired the Google IT Support Certificate offered by Coursera and facilitated by JobTrain. I got hands-on experience in solving customers' issues using remote access and technical knowledge about IT fundamentals, computer networking, operating systems, system administration, and IT security. Last year completed a course in Cloud Native Computing from PIAIC (Presidential Initiative for Artificial Intelligence and Computing Online from Pakistan). I know how to write scripts in Ubuntu, Linux, install Docker engine and minikube, and run Kubernetes using kubectl for containerized applications. After finishing the HTML course from PIAIC and FreeCodeCamp, now learning JavaScript online.

MY HOBBY: PAPER QUILLING
CENTURIES OLD ART WITH MODERN TOUCH

My name is Amirah Munad and I like Paper Quilling. Paper quilling is an art done by coiling, rolling, shaping and glueing together narrow paper strips. Paper is manipulated in many creative ways to make different shapes which are used to decorate greeting cards, pictures, boxes, jewelry, purses, baskets, coats, etc. It is believed that this art was originated in Ancient Egypt to imitate the ironwork of the day. This art form was later revived during European Renaissance and was used to decorate book covers and religious items. It is popular nowadays among crafters who like to create 3D miniature art forms.
